

PROBLEM Students struggle with maintaining consistent study routines. One-size-fits-all content doesn't address individual weaknesses. Lack of a subject-specific, interactive mentor that adapts to their learning pace	SOLUTION AI-powered coach that creates personalized solutions to students' doubts Generates step-by-step, deeply explained answers tailored to the user's level Acts like an on-demand study mentor, improving understanding and clarity	UNIQUE VALUE PROPOSITION Personalized, level-specific, and subject-tailored explanations. Instant, step-by-step solutions with concept breakdowns. Acts as a 24/7 intelligent tutor—no need to wait or search endlessly.	UNFAIR ADVANTAGE Proprietary domain-level NLP tuning for education. Adaptive reasoning engine that tailors answers by difficulty, subject, and learning style.	CUSTOMER SEGMENTS School & college students (grades 8–12, undergrad) Competitive exam aspirants Curious lifelong learners and autodidacts
	KEY METRICS Number of questions answered per session. Time spent per session. Accuracy/clarity score from user feedback.		CHANNELS Web & mobile app Social media (Instagram, LinkedIn, YouTube Shorts) Partnerships with schools, colleges, edtech platforms Discord/Telegram learning communities	
EXISTING ALTERNATIVES Human tutors (expensive, not scalable) Edtech apps (content-focused, not behavior-focused) YouTube videos and online courses (no personalization, no tracking)		HIGH-LEVEL CONCEPT “Grammarly + ChatGPT for academic questions” An AI mentor that answers what, explains why, and teaches how—all in one.		EARLY ADOPTERS High school students in Tier-1/Tier-2 cities using edtech Students frequently asking doubts online or in peer groups Coaching institute students looking for smarter solutions
COST STRUCTURE Model training/tuning costs (LLM fine-tuning or API usage) Cloud hosting and infrastructure Content moderation and support team Marketing and outreach			REVENUE STREAMS Freemium model: limited daily questions, premium for unlimited/expert support Subscription plans (monthly/yearly) Ads/sponsorships from edtech partners
